CARS TO ST. CHARLES MAY BE DISCONTINUED

Public Service Company Would Stop Loss and Save Viaduct Cost.

The intention of the Public Service Co. to abandon street car operation on that part of the St. Charles line west of a point near the Wellston Kennel Club, has been made known in letters from S. W. Greenland, general manager of the company, to business men in St. Charles.

Greenland stated that the continued annual loss of \$32,000 in operation of the line and the proposed requirement that the company pay \$14,009 for a viaduct to carry Lindbergh boulevard (State Highway No. 77) over the street car tracks near Pattonville, are the reasons for the company's decision. He said the company expected to ask the Public Service Commission for permission to abandon the western part of the line, but would see that someone was ready to operate bus service as a substitute.

"I hope you will realize that there is no other course open to us," Greenland wrote, "because revenues for our system as a whole have been so greatly reduced that they now are barely sufficient to pay actual cost of operation and meet interest on our indebtedness. leaving nothing whatsoever for the owners of the property. Those of our movements screened from the light by thecanvas bridge were carried on by the sense of touch and the sound of weary voices.

In my position abaft, taking in the tail of the rope. I was exposed to the waves and wind. My waterproof overalls had ceased to be of service. The sea came in through the neckband and up the trousers and sleeves, but my position did give me a general view of the whole dramatic scene.

Our men, their figures grotesquely bulked by life preservers, moved and shouted, except when sharply silhouetted in the searchlight beams, like animated articulate pill boxes.

Our slender decks, narrowing still more at the bow, every time the Nautilus dipped into the sea seemed to fall like an arrow to destruction. With every roll the decks lapped the green water. The play of the battleship's search lights on our wirelss tripods from 500 feet away cast long, black shadows like gnarled roots in some

At times when we sank in the trough of the sea, an oncoming wave would swing high above us. When that happened between me and the searchlights, I could see myriads of fish wriggling weirdly silhouetted against the water.

A passenger ship passed with deck and salon lights glaring. A waning moon glowed fitfully in the scudding clouds. Our men were now practically exhausted; still they heaved and shouted, but the shouts were feeble. Muttered curses were heard.

At last there was the clang of metal upon metal. The iron shackle at the end of the tow-line had struc' our side.

Second Hearing of \$100,-000 Breach of Promise Suit by Miss Edith Cockley.

The second hearing of the \$100,-000 breach of promise suit of Miss Edith Cockley, 49 years old, against Charles B. Gerhart, elderly wealthy real estate dealer, 4484 For-est Park boulevard, is on trial before a jury in Circuit Judge Nortoni's court. At the first trial, in December, 1929, a jury was unable to agree and the case was

Miss Cockley testified yesterday

she first became acquainted with Gerhart, who has been married three times, in 1913, when she was employed in the former candy and popcorn shop o' her father, William H. Cockley, at Grand and Lindell boulevards. She said Ger-hart proposed to her four years later, at which time she declined to marry him. They drifted apart but she renewed the acquaintance in November, 1926, when she went to see him about refinancing a mortgage loan of \$2000 for he father. She said he entertained her in his home several times and again asked her to marry him. This alized she had loved him all the

Told Parents of Proposal. Miss Cockley related that on the occasion of the last proposal Gerhart drove her from a political meeting at Clayton which was addressed by Senator Hawes to her father's home at Overland and broke the news to her parents, who had retired for the night. "My mother cried, but my father said to Mr. Gerhart that he always knew he was a sly old fox and if he kept on he would get me," the plaintiff told the jury. On this occasion Gerhart presented her father with a bottle of whisky and a bag of pretzels, she said.
According to Miss Cockley's tes-

timony, Gerhart introduced her to guests at his home as the new mistress of his household and he informed one of her neighbors that Overland would soon be missing me, as he was going to take me away from there."
On cross-examination she identi-

fied two \$100 checks which Ger-hart signed in her favor. She said one was given to her for her fa-ther and the other was for her personally. She denied she sought a renewal of her acquaintance with the defendant in order to get \$100 checks. She admitted he called up a women's apparel store and approved the purchase by her of a coat and several dresses, but this was after they were engaged, she explained.

Engagement Broker Miss Cockley asserted that Gerhart planned with her to motor to Marion, Ind., on Nov. 30 to be married, but on that date he had someone telephone stating the wedding would have to be postponed because of a business development. On Jan. 9, 1927, he broke the engagement. she said, telling her he had changed his mind, as he thought being married three times was enough for him; further that there was anothe

I Always Return BABY LABEL"

Mrs. Selma Van Borgen

"I have been serving Baby Label Bread for almost twenty-four years. During this time I have also baked bread at home, but I have discovered that Baby Label Bread is just as good as my home-baked loaf. So I have decided that it is much more sensible to get a loaf of fresh Baby Label from my grocer than to stand over an oven and bake.

"I have also tried other bread that sold at a lower price, but I have always returned to Baby Label. It certainly is superior bread and well worth any little price difference. I hope other housewives may read this, and profit by my experience."

Yours truly.

Lack of hitting has been the principal trouble with the Cardinals, as they have lost three out of six to the Braves and the only game with the Phils since leaving home. Naturally the St. Louis ottchers are going to be shellacked of those occ sions. Sylvester Johnson held the slugging Phillies to one run in five innings, but Shotton's heavy guns finally found the range in the sixth and seventh and with Jumbo Jim Elliott hurling shutout ball in eight frames and the Cards getting only three runs in their one productive inning, the Phillies made off with the verdict,

That has made many a forlorn hope, especially on the ball field, come out on top.

Ready to Go-With Help.

THESE Browns continue to surprise. Beating the Yanks three games in a row was probably the biggest shock fans have had in this shocking season.

On other occasions the Browns have shown definitely that when its pitching is sound the team is not an easy one to down. It has some elements of strength which, if bolstered up with a few first-class helpers, would make it something more than a second division in-and-outer.

Moving up of Fred Schulte to the lead-off batting position has resulted in a strange improvement in the work of this player, who, when put on the cleanup job, usually failed when the pinch came. Today Schulte is really earning his salt as a \$75,-

One more crack outfielder who could rap the apple about .330, and a really first-class pitcher would make the Browns a club to be respected, especially in a league which seems to have only one or two real baseball teams.

WISCONSIN, at least, knows how to classify those cavortings on the mat which are popularized under the name of wrestling. A bill to place "wrestling" under the supervision of the State Boxing Commission was brought up at Madison, last week. One Senator wanted to know why, since boxers were licensed, the state should not also license wrestlers.

"Because," said another Sen ator who had seen a real wrestling match once upon a time, 'we don't license other actors." The bill died.

Spelled It Differently Then.

A MONG the great horseshoe pitchers of history followers of this sport like to include the famous Chief Justice, John Marshall, the "daddy of horseshoe pitching."
But pshaw, John is compara-

tively modern. The Roman Emperor, Caligula, who flourished, if you want to call it that, nearly 2000 years ago, was the originator of "rihgers." Cal was the boy who wished the entire Roman population had but one neck, so that he could wring it. Some "wringer!"

Doesn't Seem Right.

GREY LAG, a wonder-horse in his day, winner of \$136,675, Belmont Stakes, the Dwyer Stakes, the Brooklyn Handicap and others, in his three-yearold form, is now, at the age of 13, being raced in claiming stakes against platers.

Not much sportsmanship in that. Harry Sinclair, who owned him, surely booted one when he disposed of him without conditions. It was almost equivalent to selling an old family servant down the river in slave days.

Grey Lag was a failure on the breeding farm so his new owner brought him back to the races. However, lest it appear that the thing is a cruel and unusual punishment on the horse, cases can be cited of racers whose activity on the track was con-tinued beyond the normal. For example when the American owner, Stephen Sanford, won the Grand National Steeplechase with Sergeant Murphy, his entry was 14 years old. If recollection serves, older horses than this have won the event, a four and one-half mile race, with something like 30 obstacles to be

Grey Lag's task seems comparatively easy beside running in a Grand National.

Still, it doesn't appear at all "sporting" to sentence a horse which has done his work as out his career with the downand-outs of the turf world.

om the Post-Dispatch, Sept. 10, 1930. F' we wish to collect the debts, we must lower the tariff. If we wish to maintain protective tariff rates, we must cancel the debts. Debt collection requires the admission of foreign goods. Tariff laws are deliberately designed to exclude foreign goods. The two policies are utterly opposed. We may have either the one or the other. We cannot conceivably have both. Certainly this fact must be apparent to the most feeble of intellects. None the less, the administration which gave us the Grundy tariff is reported as being firmly opposed any further reductions in the inter-Allied debts. We await with interest the ing to route the sun from west to east, to put an end to the ebb and flow of the tides, and to send the rivers rushing up to the mountain tops.

A TERRIBLE MISTAKE. From the Post-Dispatch, Oct. 11, 1930

THE United States is very largely responsible for the international situation. It is not our tariff alone. Our insistence upon payment of the war debts is also an important factor in the paralysis of international trade. It is likely that by repealing the Hawley-Smoot tariff laws and reverting to the moderate scales of the Underwood tariff, and by canceling the war debts, the American Congress could within a short time do more to revive world trade than any other nation possibly could do. It must by this time be plain that both

of these American policies are mistakes. Our insistence that our Allies pay us the \$11,000,000,000 which they owe us from the World War imposes in turn their in sistence that Germany shall pay them \$600 .-000,000 a year under the Young Plan. Europe cannot meet these great obligations, and her distress reflects itself upon trade everywhere. To forgive the war debts would restore to the international economy much of its accustomed buoyancy. By abandoning our expectations of our own debtors, we would in turn relieve the pressure upon Germany. Both the economic and political consequences of cancellation would be

There is no real disagreement among economists as to what is wrong. They are only saying now what they said be sistence upon the war debts and the Allied insistence upon reparations. They knew that such a policy would be suicidal, and so it has proved. They knew, for instance, that it would disarrange the distribution of gold. A shortage of gold means business depression, falling prices and hard times.

We suggest that the Hoover administra tion give up its pep talks and ask itself seriously whether it is doing ourselves or the world any good by standing upon the Grundy tariff and the Mellon war debt

OES the policy pay? While we are getting several hundred millions in debt payments, our foreign trade is falling off we ourselves are suffering heavily from the world-wide depression of business It is high time for a return to reason by all the nations. The world has suffered enough from war hatreds. Revision of harsh treaties, the killing of war debts and reparations, are in order. Nothing else would do more for a revival of international good will and general prosperity.

WAR VICTORS SUFFER, TOO.

repeat again, with emphasis. the time has come for us to reconsider our policy with regard to war debts and for the revision of reparations. The victors in the World War, if they press their demands on their war debtors and the conquered, may suffer as much as the losers. We are suffering now.

WORLD HAS A LESSON TO LEARN. Mare in nowise singular and we would just as well talk of forgiving our debtors all around; but Mr. Coolidge is mistaken. An enlightened self-interest hesitates to believe that the vicious economic circle which has resulted from thrusting the cost of the war upon Germany is a good thing for the international economy. The matter of war debts and reparations, like the matter of trading with Russia, illustrates how things that are economic can rise to plague us when we insist upon making them political. Neither Germany nor Russia can be lightly counted out of the international economy, and the world no more salutary lesson to learn than that the interdependence of all nations is too great for either political intolerance or international vengeance.

EUROPE'S GORDIAN KNOT.

E are entangled in the Gordian knot W E are entangled in the Gordian of European finances whether we wish it so or not, and what happens to Germany will affect the United States no matter how we seek to avoid it.

One reason the appeal subsided was because recently the wage earner was supposed to be better off than the farmer. This conclusion resulted from the constant demand for farm relief. Famous Stage Beauty tells how you, too, may keep Youthful Allure

DON'T mind admitting it in the least," says Mary Boland. "I'm over forty years old!

"There's no reason nowadays to care about birthdays. Any woman who really wants to can keep the radiant charm of youth right through the years.

"We on the stage have proved it. Our thirties-forties-even fifties! have no

terrors for us. It's just a matter of realizing the importance of complexion care.

"For years I have used Lux Toilet Soap to keep my skin youthful. Its lather is so gentle and soothing and it does leave one's skin remarkably smooth!"

Mary Boland is only one of countless perpetually youthful stage and screen stars who use fragrant white Lux Toilet Soap to guard complexion beauty.

Of the 613 important screen actresses in Hollywood (including all stars) 605 use it regularly. It is official in all of the great film studios.

Don't Rasp Your Throat With Harsh

Irritants

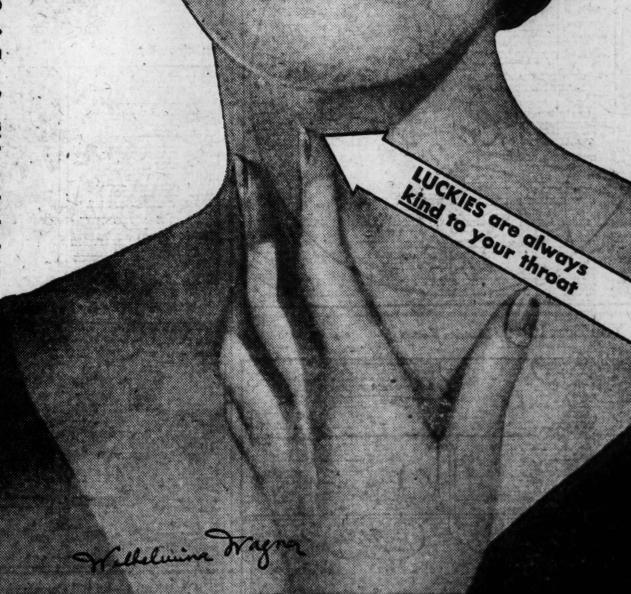

"Reach for a LUCKY instead"

Touch your Adam's Apple with your finger. You are actually touching your larynx - this is your voice box - it contains your vocal chords. When you consider your Adam's Apple, you are considering your throat—your vocal chords.

Profit by the statements of 20,679 American physicians that LUCKIES are less irritating than other cigarettes. Don't overlook that periodic health examination they recommend.

LUCKY STRIKE'S exclusive "TOASTING" Process expels certain harsh irritants present in all raw tobaccos. That is your throat protection — against irritation against cough. And so we say "Consider your Adam's Apple." Be careful in your choice of cigarettes. Don't rasp your throat with harsh irritants. Reach for a LUCKY instead.
